CHRISTMAS BELLS.

I heard the bells on Christmas day

Their old familiar carols play,

And mild and sweet

The words repeat

Of "Peace on earth, good-will to men."

And thought how, as the day has come,

The bellies of all Christendom

Now roll along

The unbroken song

Of "Peace on earth, good-will to men."

Till ringing, singing, on its way,

The world revolved from night to day,

A voice, a chime,

A name sublime,

Of "Peace on earth, good-will to men."

But in silence I bowed my head,—

"There is no peace on earth," I said;

"For hate is strong,

And mocks the song,

Of "Peace on earth, good-will to men."

Then pealed the bells more loud and deep

"God is not dead; nor doth he sleep;

The Wrong shall fall, the Right

prevail.

With peace on earth, good-will to

men."

CHRISTMAS.

Again we are near the 25th of December, which day all civilized nations observe in memory of the birth of Jesus Christ. How different are the associations which are connected this day from those which cling to the celebration of a festival in honor of some heathen deity. There is difficulty in accepting this as the date of the Nativity, December being the height of the rainy season in Judea, when neither flocks nor shepherds could have been at night in the fields of Bethlehem. The uncertainty of the exact date, however, in no way detracts from the appropriateness of observing such a day, since it is the event rather than the date which men join in remembering. By many it is looked on merely as a holiday season, but by others it is held in sacred remembrance as being the birth day of the Saviour. On this day—and on this alone—all the civilized nations of the world unite in remembering Christ, since He has been the benefactor not of one nation only but of all nations. Although born a Jew, His blessings have been extended to other nations rather than His own, and in a special manner have they been extended to our own. That Christianity more than any other institution has brought peace and blessing to mankind and that the organizations which it has fostered have been beneficial to mankind is self-evident. It is therefore just that men should do homage to the founder of an institution which has been so beneficial to mankind. The old practice of making presents to friends at this season is a beautiful one, thus causing them to remember the greatest of all gifts to mankind—the Son of God.

The Immigration Committee represented by chairman McKay and Mr. Betts, accompanied by D. H. Macdonald, M.P. and Capt. Smith, waited on the Railway officials with a view of securing liberal action on their part, in the important matter of immigration. Messrs. Whyte and Kerr were given a full history of our local efforts in this connection during the past year, and were surprised to learn of the active steps our people had already taken. They will urge on the chief officers of the road the importance of our receiving consideration in the way of settlers' rates. We have a magnificent country, with nearly every natural advantage, but unless the R. R. Company are prepared to give us the same concessions as are given other settlements along the main line and Manitoba branches we have an uphill fight ahead of us. Place us on the same footing as others and our population will be tripled in five years. Every phase of the question has been carefully gone into. We must for a time be satisfied with the assurance that both

Mr. Whyte and Mr. Kerr will urge the importance of arrangements being made on the line suggested by the deputation, which, if eventually carried out, must prove alike profitable to our settlement and the railway company.

After the Immigration delegation had finished their interview with the R. R. officials, a large party consisting of Supt. Whyte, Manager Kerr and Private Secretary, Mr. Baker, Supt. of the M. & N. W., D. H. Macdonald, M.P., J. E. Betts, M.L.A., Thos. McKay, Capt. Smith, and G. S. Davison drove down the line of the east end spur and back through the town. The visitors were delighted with our situation, and visions of a large carrying trade in lumber loomed up before them as they drove through Moore & Macdonald's well appointed yards.

In another column will be found a letter from "Moralay" drawing attention to the house of ill fame which has been recently started in our midst. In it the writer rightly calls on those who truly have the moral interest of the town at heart to bring about the early removal of the occupants of this house. It is needless to say that this is the right time to take steps for its suppression, and if such is done, instead of being corrupted, the morals of the place will be strengthened, and in outside places credit will be given accordingly. It is said that Regina did themselves the honor of burning such a house as this, and would it be well for the people of this place to come behind other towns of the Territories in their anxiety to maintain in our midst pure morality. It is well known that all respectable immigrants take into consideration, in some measure, the morality of the place which they intend making the place of their abode. For the sake of our moral reputation we think therefore that steps ought to be taken for suppressing in some way this institution which is only intended for the wholesale corruption of our people.

The recent visit of Supt. Whyte and Traffic Manager Kerr was of importance to the future of our settlement. Loud complaints have been made respecting merchant's freight rates while the export trade heretofore prohibited such traffic. The Board of trade did well to lay the situation, from a local point of view, fully before these officials, for they have been assured that the questions will be satisfactorily dealt with at an early date. Railways provide many advantages for a people, but in order to be a material factor in developing a settlement situated as ours they must provide advantages alike to the importer and the exporter. This has been promised, and when legitimate rates are fixed a new era will have dawned on Prince Albert, not only will large herds of stock soon be seen traveling southward and eastward from here, but another year will see a tremendous increase in the acreage of this grain crop, while immediate transportation will begin from our crowded lumber yards, and an active trade in cordwood, railway ties, etc., will be speedily developed.

The sum of \$2,500 has been raised in St. John for a memorial to the lad Young, who lost his life in an attempt to save a young companion from drowning. This represents the contributions of over 7,500 people. The Blue Noses can appreciate as well as perform gallant actions.

The centre of monetary stringency has moved from London to New York, and the U. S. Secretary of the Treasury is bothering himself about how it can be relieved. The rest of the continent of America is too much accustomed to a monetary stringency as Christmas approaches to become excited over the visitation. A look of hardupness is the normal indications of the paternal pocketbook for a week before the 25th.

The London Times reproduces with approval the remarks of the Hon. Mr. Chapleau at the banquet to the Comte de Paris touching the staunch loyalty of the French Canadians. The telegram cabled by the Comte de Paris himself to the Queen before his departure from Canada was a significant and striking confirmation of Mr. Chapleau's testimony, and a memorable incident in the relations between the people of Canada and both the great nations from which they have mainly sprung.

Allen's Lung Balm was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heats the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is a real necessity for so many deaths by consumption when Allen's Lung Balm will prevent it if only taken in time. For Croup, whooping cough, and all diseases that lead to it, such as Croup, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S Lung Balm is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and \$1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced Cough Cure. If you have not tried the Balm, call for a 25-cent bottle to test it.

Pine Ridge Agency, S.D., Dec. 11.—Tired of waiting for soldiers to come and get killed, the Indians in the Bad Lands have begun fighting among themselves. This news was brought in last night by two Government scouts and friendly Indians, and is reliable. A battle took place yesterday in the heart of the Grass Valley. Two Strike and his followers circled around Short Bull and his tribe all forenoon, actively skirmishing, each leader bound that his supremacy as chief of the whole body should be acknowledged. They killed all the way from 20 to 40. As scouts and friendly Indians had to escape during the confusion, the result of the skirmishing is not known. Gen. Brooke sent Little Bat and five other Indians back with old Two Strike under the agreement made in council that one should return each day and report the progress of the Reds in coming in. Not one of these men have returned but are close prisoners of war. It is reported that Little Bat has been killed, but the report is not verified.

Toronto, Dec. 11.—The board of trade of Toronto, members of the Ontario government and representatives of the Grand Trunk and Canadian Pacific roads returned to-day from a visit to the Sudbury nickel mines, which they inspected with a view of determining their importance in connection with the proposed re-establishment of nickel steel works in Canada. The Dominion and Ontario governments are being asked to bonus the extension of the Central Ontario railway through to Sudbury to the extent of one and a half million of dollars. They are also asked to pay interest on five millions of dollars of capital stock for the nickel steel plant for a period of ten years.

Fairmont, W. Va., Dec. 11.—The evictions of strikers miners were begun at the Monongahela mines to-day. The strike has been spread to alarming proportions. The men at the Montana & Despard works have joined the strikers and about 2,000 men are now out. The strike is against the reduction of five cents per ton. The miners are controlled by a syndicate, in which ex Senator Camden, Governor Fleming and Senator Gorman, of Maryland are largely interested.

Washington, Dec. 11.—The cruiser Newark again failed on the trial trip to-day. A telegram received at the Navy department this morning states that the Newark on the second trial running for three hours broke several bolts of the radial valve of the low pressure cylinder of the starboard engine. New bolts will be put in and another trial commenced Saturday. On the first trial the Newark failed to make the necessary horse power.

Ashbury Park, N. J., Dec. 11.—The shore towns of New Jersey are being flooded with circulars and lists of official drawings of the Louisiana Lottery company. Every prominent business man of Ashbury Park has received a batch of documents. They were delivered by the local agent of Adams Express Co. Each batch was inclosed in one of the money remittance envelopes of the Southern Express Co. The envelopes were carefully sealed and were certified to contain \$1. In one corner was a printed request to return the packet to Southern Express company at New Orleans if not delivered in fifteen days. The circulars to Ashbury Park people came from the Philadelphia office of the Adams Express company. They stated that all orders for tickets should be forwarded by express, but local agents of the Adams and United States Express companies refuse to take money remittance for the lottery company.

Washington, Dec. 11.—The financial situation was discussed at a meeting of the house committee on banking currency to-day. There was a general agreement that some measure for the restoration of confidence in the money market should be passed by Congress before a measure of a radical nature for permanent relief should be considered.
